Soft Dollar Commissions or Arrangements

Subject to best execution and the requirements stated below, brokerage commissions on portfolio transactions for the Company may be paid by the Management Company and/or the Investment Managers, as the case may be, as consideration for research related services provided to them as well as for services rendered in the execution of orders. The receipt of investment research and information and related services allows the Management Company and/or the Investment Managers, as the case may be, to supplement their own research and analysis and makes available to them the views and information of individuals and research staffs of other firms. Such soft commissions do not include costs relating to travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries or direct money payment, which are to be paid by the Management Company and/or the Investment Managers, as the case may be.

The Company may pay, or be responsible for the payment of, such soft commissions only insofar as:

- a) the Management Company and/or the Investment Managers, as the case may be, act at all times in the best interest of the Company and the Shareholders when entering into soft commission arrangements;
- b) the goods and/or services provided by the broker-dealers relate directly to the activities of the Management Company and/or the Investment Managers, as the case may be, and such activities are of demonstrable benefits to the Shareholders; and
- c) any such soft commission is paid by the Management Company and/or the Investment Managers, as the case may be, to broker-dealers which are corporate entities and not individuals.

The Management Company and/or the Investment Managers, as the case may be, may enter into commission sharing arrangements only where there is demonstrable benefit to the Company and where the Management Company and/or the Investment Managers, as the case may be, are satisfied that the transactions generating the shared commissions are made in good faith, in strict compliance with applicable regulatory requirements and are in the best interests of the Company and the Shareholders.

Any such arrangements must be made by the Management Company and/or the Investment Managers, as the case may be, on terms commensurate with best market practice and brokerage rates should not be in excess of customary institutional full-service brokerage rates. Subject to their local regulatory rights, the Management Company and/or the Investment Managers, as the case may be, may make use of soft commissions to pay for research and/or other goods and services. Other jurisdictions may have other arrangements in place to pay for such services in accordance with local regulatory obligations.

Periodic disclosure in the form of a statement describing such soft dollar practices will be made in the Company's annual report.

Sales commissions and trail commissions may be paid to sales partners and, in compliance with Luxembourg law, reimbursements may be granted to investors from the management and central administration agent fee as well as the performance-related fee of the Management Company.

Conflicts of Interest

The Management Company, the Investment Managers and the Sub-Investment Managers may from time to time have to deal with competing or conflicting interests of other funds managed by the Management Company, the Investment Managers and the Sub-Investment Managers (the "other funds").

For example, the Management Company, an Investment Manager or a Sub-Investment Manager may make a purchase or sale decision on behalf of their other funds without making the same decision on behalf of the Underlying Fund, as a decision whether or not to make the same investment or sale for the Underlying Fund depends on factors such as the cash availability and portfolio balance of the Underlying Fund.

However, the Management Company, the Investment Managers and the Sub-Investment Managers will use their reasonable endeavours at all times to act fairly and in the interests of the Underlying Fund. In particular, after taking into account the availability of cash and the relevant investment guidelines of the other funds and the Underlying Fund, the Management Company, the Investment Managers and the Sub-Investment Managers (as the case may be) will endeavour to ensure that securities bought and sold will be allocated proportionately as far as possible between the other funds and the Underlying Fund.

The Management Company, the Investment Managers, the Sub-Investment Managers and the Custodian will conduct all transactions with or for the Underlying Fund on an arm's length basis.

The Management Company, the Investment Managers, the Sub-Investment Managers or the Custodian or their respective affiliates (together the "Parties") are or may be involved in other financial, investment and professional activities which may on occasion cause conflict of interest with the management of the Underlying Fund. Each of the Parties will ensure that the performance of their respective duties will not be impaired by any such involvement. In the event a conflict of interest does arise, the Parties will endeavour to ensure that it is resolved fairly and in the interest of the shareholders of the Underlying Fund.

The Management Company, the Investment Managers, the Sub-Investment Managers or the Custodian may own, hold, dispose or otherwise deal with the Shares in their own capacity. In the event of any conflict of interest arising as a result of such dealing, the Management Company, the Investment Managers, the Sub-Investment Managers and the Custodian, following consultation with the other, will resolve such conflict in a just and equitable manner as they deem fit.
