SUB-FUND SUITABILITY

WHO IS THE SUB-FUND SUITABLE FOR?

- The ILP Sub-Fund is only suitable for investors who:
 - are looking to maximize total return through a combination of both income and capital growth;
 - are looking for a diversified exposure to high yield fixed income markets and are willing to accept the risks and volatility associated with investing in such markets; and are looking for a diversified exposure to high yield fixed income markets and are willing to accept the risks and volatility associated with investing in such markets; and

Due to the higher than average degree of risk attached to investment in the Underlying Fund because of its ability to invest in high yield securities, an investment in the Underlying Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

The ILP Sub-Fund does not distribute income and where applicable will re-invest any income received from Pimco GIS: US High Yield Bond Fund E Acc USD (the “Underlying Fund”).

Further Information

Refer to “*Investment Objectives and Policies*” of the Underlying Fund’s Supplement for further information on Sub-Fund suitability.

KEY FEATURES OF THE SUB-FUND

¹ For ILP sub-funds that feed 100% into an underlying CIS fund, some of the information provided below could be similar to the underlying CIS fund.

² In order for units in the ILP sub-fund to be classified as Excluded Investment Products, the investment objectives and investment focus of the ILP sub-fund, and investment approach of the manager have to be stated in the product summary:

- (a) to invest only in deposits or other Excluded Investment Products; and
- (b) not to engage in securities lending or repurchase transactions for the ILP sub-fund.

The definition of “Excluded Investment Product” can be found in Annex 1 to the Notice on Recommendations on Investment Products [Notice No. FAA-N16] at <http://www.mas.gov.sg/Regulations-and-Financial-Stability/Regulations-Guidance-and-Licensing/Financial-Advisers/Notices.aspx>.

WHAT ARE YOU INVESTING IN?

- You are investing in an ILP sub-fund that feeds 100% into the Underlying Fund, which is an umbrella type open-ended investment company incorporated with limited liability under the laws of Ireland, authorised by the Central Bank of Ireland as a UCITS.
- The investment objective of the Underlying Fund is to seek to maximise total return consistent with preservation of capital and prudent investment management.
- The current dividend policy is to pay to holders of Income Shares the Net Income and/or capital (where applicable) of the Underlying Fund, if any. The Net Income allocated to Accumulation Shares will neither be declared nor distributed but will be reinvested. Please note that where Shares distribute capital, this may reduce the NAV of the Underlying Fund.

Refer to "*Investment Objectives and Policies*" of the Underlying Fund's Supplement for further information on features of the Sub-Fund.

Investment Strategy

Summary Chart

Primary Investments	Average Portfolio Duration	Credit Quality	Distribution Frequency
Higher yielding Fixed Income Instruments	+/- 2 years of its index	Max 30% below Caa	Quarterly

- The Underlying Fund invests at least two-thirds of its assets in a diversified portfolio of high yield Fixed Income Instruments that are rated lower than Baa by Moody's or lower than BBB by S & P or equivalently rated by Fitch. In normal market conditions the Fund may invest up to 30% of its total net assets in high yield Fixed Income Instruments that are rated Caa or lower by Moody's or CCC or lower by S&P.
- The Underlying Fund may invest without limit in USD-denominated securities of non-U.S. issuers. The Underlying Fund may also engage in hedging strategies involving equity options subject to the conditions and limits set down by the Central Bank from time to time.
- The Underlying Fund will utilise a high yield credit strategy that seeks to deploy the Investment Advisor's total return investment process and philosophy. This process includes both top down and bottom-up decision-making inputs to help the Investment Advisor to identify multiple sources of value. Top-down strategies focus on both short-term and longer term global macroeconomic considerations and provide context for regional and sector selection. Bottom-up strategies examine the profiles of individual credits and are key to the Investment Advisor's ability to select undervalued securities.
- The Underlying Fund may hold both non-USD denominated Fixed Income Instruments and non-USD denominated currency positions. Non-USD denominated Fixed Income Instruments positions are limited to 20% of total portfolio exposure and non-USD denominated currency exposure is limited to 20% of total assets.
- The Underlying Fund may use derivative instruments such as futures, options and swap agreements and may also enter into currency forward contracts (for hedging and/or for investment purposes).

Parties Involved
