

## **MyCoreCI Plan II**

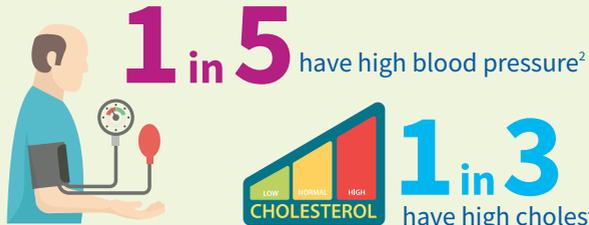

Go all out in life – we've got you covered

# Whatever your state of health, critical illness protection is crucial.

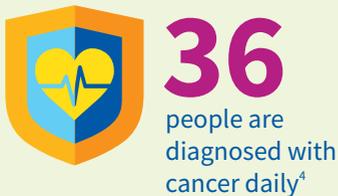

Your hard work opens the door to a higher quality of life, and you can celebrate your success with your loved ones. As you get caught up with the day-to-day, it's easy to miss subtle changes in your health.

## A look at chronic medical conditions in Singapore

When things like high blood pressure, high cholesterol, high Body Mass Index, Type 2 Diabetes and Pre-diabetes creep up on you, your life can change significantly. For instance, diabetes can lead to critical illnesses and even premature death. **In Singapore, half of heart attack patients had diabetes<sup>3</sup>.**

These health issues can also increase your risk of critical illnesses.

# Cover all your bases to **protect your future.**

With some lifestyle tweaks and good disease management, you can improve your health. And to cover all your bases, don't forget the importance of a critical illness plan to help safeguard your savings during difficult times.

## Are you thinking?

High blood pressure, high cholesterol and diabetes are on the rise in Singapore. And I may not be able to get essential critical illness insurance with these existing health conditions<sup>6</sup>.

I have some critical illness coverage but want greater protection for common illnesses like cancer and stroke. How can I get this without overspending on other coverage I don't need?

If either of these sounds like you, it's time to consider MyCoreCI Plan II.

MyCoreCI Plan II gives you the critical illness coverage you deserve – **whether you're in the pink of health or have an existing health condition<sup>6</sup>.**

# Introducing **MyCoreCI Plan II**

**MyCoreCI Plan II** is a multi-protection plan that covers 14 critical illnesses (CI), 4 diabetic conditions, total and permanent disability, terminal illness and death – even if you have Type 2 Diabetes, Pre-diabetes and/or the 3 Highs (high blood pressure, high cholesterol and high Body Mass Index). Should the unexpected happen, you'll receive lump-sum payouts that can help you and your family manage medical and out-of-pocket expenses as well as other financial commitments, so you can focus on your well-being.

## **Greater access to much-needed protection**

- Protection even with existing health conditions<sup>6</sup>** – Type 2 Diabetes, Pre-diabetes and/or 3 Highs
- Coverage for Type 2 Diabetic smokers**
- Reduced health questions**  
– 6 questions and no medical check-up needed<sup>7</sup>
- Customised premiums depending on your existing health conditions<sup>6</sup>**  
and you'll know your premiums instantly<sup>8</sup>

## Key Benefits:

### Lump-sum payout should the unexpected happen

Lump-sum payout upon diagnosis of the Critical Illnesses (CI) covered, Total and Permanent Disability, Terminal Illness or death<sup>9</sup>

### Choice of coverage term

From 15 years to up to 85 Age Next Birthday (ANB)

### Additional lump-sum payout for diabetic complications

Get additional 20% of the Sum Assured<sup>10</sup> upon diagnosis of any of the 4 Diabetic Conditions covered

### Advanced lump-sum payout upon Angioplasty & Other Invasive Treatment For Coronary Artery

Get an early payout of 10% of the Sum Assured<sup>11</sup>, up to S\$25,000

### No Claim Reward for staying on top of your health

Get back 20% of your total premiums paid<sup>12</sup> at the end of the policy term if no claim is made on any benefit during the policy term

#### Critical Illnesses covered

1. Major Cancer
2. Heart Attack of Specified Severity
3. Stroke with Permanent Neurological Deficit
4. Blindness (Irreversible Loss of Sight)
5. Coronary Artery By-pass Surgery
6. End Stage Kidney Failure
7. Other Serious Coronary Artery Disease
8. End Stage Lung Disease
9. Irreversible Loss of Speech
10. Major Burns
11. Deafness (Irreversible Loss of Hearing)
12. Major Head Trauma
13. Severe Bacterial Meningitis
14. Angioplasty & Other Invasive Treatment For Coronary Artery<sup>11</sup>

#### Diabetic Conditions<sup>13</sup> covered

1. Coma due to Hyperosmolar Hyperglycemic State (HHS)
2. Limb Amputation due to Diabetic Complications
3. Diabetic Nephropathy
4. Diabetic Ketoacidosis

## Here's how **MyCoreCI Plan II** could help if you have an existing health condition<sup>6</sup>

Jeff<sup>44</sup> is a 35-year-old father of young twins. He's been living with Type 2 Diabetes for 5 years. Jeff gets **MyCoreCI Plan II** with a S\$100,000 cover and 45-year policy term. He pays a monthly premium of S\$120.30.

Sum Assured : S\$100,000  
**Total benefits payout : S\$120,000**

Jeff buys **MyCoreCI Plan II** with S\$100,000 cover and 45-year policy term.

He undergoes an amputation of his left leg due to diabetes complications. He gets a **S\$20,000 lump-sum payout**.

Jeff undergoes an angioplasty for a blocked artery. He gets a **S\$10,000 lump-sum payout**.

He suffers a heart attack, one of the CIs covered under the plan. He receives a **S\$90,000 lump-sum payout**.

35      42      50      68      80      Age Next Birthday (ANB)

Monthly premium of S\$120.30 for policy term of 45 years.

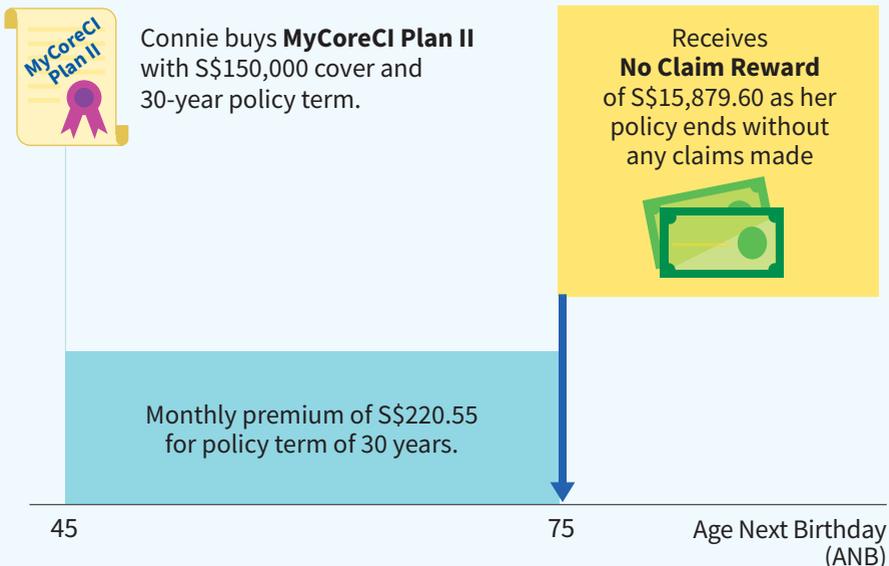

**Premiums stop as the policy has ended.**

## The plan also rewards you for staying healthy. Here's how it works

Connie<sup>15</sup> is a 45-year-old who has a high Body Mass Index of 33 and a blood glucose level that's above the healthy range. She buys **MyCoreCI Plan II** with a cover of S\$150,000 and a policy term of 30 years. She pays a monthly premium of S\$220.55.

At 75, Connie celebrates her good state of health and when her policy ends without any claims made, she receives a **No Claim Reward** of 20% of her total premiums paid.

|                        |                       |
|------------------------|-----------------------|
| Sum Assured            | : S\$150,000          |
| Total premiums paid    | : S\$79,398           |
| <b>No Claim Reward</b> | <b>: S\$15,879.60</b> |

5. Source: The Straits Times© Singapore Press Holdings Limited. Extracted with permission. “1 in 10 stroke patients here aged under 50”, 19 November 2016.
6. Existing health conditions refer to Type 2 Diabetes, Pre-diabetes and/or the 3 Highs (high blood pressure, high cholesterol and high Body Mass Index).
7. Medical examination is not needed if your application does not require further medical underwriting.
8. Provided your application does not require further medical underwriting.
9. Upon death of the Life Assured and if there is no prior claim, Aviva Ltd will pay either:
  - (a) 100% of the Sum Assured; or
  - (b) total premiums paid;whichever is higher.

If there is any prior claim(s) on the benefits, Aviva Ltd will pay either:

- (a) 100% of the Sum Assured less any claim(s) paid on the benefits (other than claim(s) paid on Diabetic Conditions Benefit); or
  - (b) total premiums paid less any claim(s) paid on the benefits;
- whichever is higher.

Critical Illness Benefit, Total and Permanent Disability Benefit and Terminal Illness Benefit are early payouts of the Death Benefit. Please refer to the Product Summary for details.

**Important notes:** (cont'd)

10. If the Life Assured suffers from any of the covered Diabetic Conditions, Aviva Ltd will pay an additional 20% of the Death Benefit Sum Assured, up to S\$25,000 per condition per life. If Aviva Ltd has paid part of the Death Benefit as an early payout in a previous claim, the Diabetic Conditions Benefit will be payable based on the prevailing Death Benefit Sum Assured. This benefit ceases once the additional 20% of the Death Benefit Sum Assured is fully paid out under this benefit or when the policy terminates, whichever is earlier. Only one claim can be made on the same Diabetic Condition. Any claim made on the Diabetic Conditions Benefit will not reduce the Sum Assured of the other benefits. Please refer to the Product Summary for details.
11. If the Life Assured undergoes Angioplasty & Other Invasive Treatment For Coronary Artery, Aviva Ltd will pay 10% of the Sum Assured (subject to the maximum claimable limit of S\$25,000) and reduce the Sum Assured by the same amount. Aviva Ltd will only pay once for Angioplasty & Other Invasive Treatment For Coronary Artery and this benefit is an early payout of the Death Benefit. All benefits for the Life Assured will continue to be payable based on the prevailing Sum Assured after Aviva Ltd makes the payment for Angioplasty & Other Invasive Treatment For Coronary Artery. Please refer to the Product Summary for details.
12. Total premiums paid includes loadings (if any).
13. Diabetic Conditions covered:
  - (a) Coma due to Hyperosmolar Hyperglycemic State (HHS): A serious acute complication of diabetes characterised by severe hyperglycemia with no ketoacidosis.
  - (b) Limb Amputation due to Diabetic Complications: The actual undergoing of amputation of a leg / foot at ankle or above / arm / hand at wrist or above to treat gangrene that has occurred because of a complication of diabetes.
  - (c) Diabetic Nephropathy: A definite diagnosis of diabetic nephropathy by a Specialist and is evident by eGFR less than 30 ml/min/1.73 m<sup>2</sup> with ongoing proteinuria greater than 300mg/24 hours.
  - (d) Diabetic Ketoacidosis: A serious acute complication of diabetes characterised by ketoacidosis (high levels of blood acids called ketones) and hyperglycemia.

Please refer to the Product Summary for the detailed definitions of the Diabetic Conditions.

14. Illustration is based on a male, non-smoker, 35 Age Next Birthday who bought a Sum Assured of S\$100,000 for policy term of 45 years. He is diagnosed with Type 2 Diabetes and his latest Haemoglobin A1c (HbA1c) reading within the last 12 months as provided by a doctor is 7.5%.

**Important notes:** *(cont'd)*

15. Illustration is based on a female, non-smoker, 45 Age Next Birthday who bought a Sum Assured of S\$150,000 for policy term of 30 years. She has a Body Mass Index of 33 and a blood glucose level that is above the healthy range, but not high enough to be diagnosed as Type 2 Diabetes.

This brochure is published for general information only and does not have regard to the specific investment objectives, financial situation and particular needs of any specific person. A copy of the Product Summary may be obtained from Aviva Ltd and the participating distributors' offices. You should read the Product Summary before deciding whether to purchase the product. You may wish to seek advice from a financial adviser representative before making a commitment to purchase the product. In the event that you choose not to seek advice from a financial adviser representative, you should consider whether the product in question is suitable for you.

As this product has no savings or investment feature, there is no cash value if the policy ends or if the policy is terminated prematurely. Buying an accident and/or health insurance policy that is not suitable for you may impact your ability to finance your future healthcare needs. It is usually detrimental to replace an existing accident and health policy with a new one as the new policy may cost more or have fewer benefits at the same cost. This brochure is not a contract of insurance. Full details of the standard terms and conditions of this policy can be found in the relevant policy contract.
